PROSPERITY CONSCIOUSNESS YOGA WORKSHOP

Did we elect a president based upon our definition of **value** as Net Worth? This highly dynamic yoga workshop, will challenge you to redefine your understanding of VALUE. We will look at the Prosperity Consciousness Matrix on which we all stand right now. It is a set of belief systems we grew up with. It is physically in our DNA and it's energetically in our consciousness.

In this workshop you will participate in journaling exercises, sound healing to facilitate clearing and relaxation, an all-levels Asana practice, pranayama, and meditation to facilitate changes in your personal perspective and Prosperity Matrix.

You can consider this a system reboot and upgrade for your consciousness.
